A New Kind of Catalogue The distribution of this cata-

logue will open the greatest Special Bargain Sale in the history of our business and will offer some of the greatest bargains in Roses, Bedding Plants, etc., that have been presented this season. Most floral catalogues are very much alike. This one is entirely different. The flowers are illustrated in their natural colors and offered in collections which makes ordering extremely simple.

Why We Can Save You Money

All of our goods are grown in large quantities for wholesale purposes. Our retail prices are based on our large production, giving our retail customers an easily appreciated advantage. By adopting the plan, special offers and collections, we reduce our selling expense to a minimum and as our sales to you are by mail, execution of the orders are attended with comparatively little expense.

McGregor Quality This saving is put into better care of the plants, etc., maintenance of "McGregor

Quality," and giving you lower prices than those for which you can buy corresponding quality from a retail dealer.

How to Order It will not be necessary to write out the names of the plants given

in the special offers or collections.

Simply give the number of the "Special Offer" or "Collection."

Be sure to enclose the correct amount, as that will facilitate

the filling of your order. It is best to send an express money

order or Postoffice order, but if not, you may send check. If

you send coin, send it in a registered letter. We will be re-

sponsible for it in this way. Postage stamps will be accepted

for fractional parts of a dollar or where postoffice orders can-

not be had, provided a two-cent stamp extra is sent with every

remitance. None but stamps in perfect order accepted.

None but stamps in perfect order accepted.

It makes it much easier to fill your

orders promptly and to give you better

plants if you order early, before the

stock runs low. If you do not want the plants at the time you

order them, because it is too cold, or you are not ready for

them, simply state when you want the goods shipped. We will

set aside your plants and take care of them until you are

ready for them. If nothing is said about holding them, we

try to ship them the same or the next day after receipt of the

order.

Order Early These low prices are in no sense

any indication that the goods are not high grade. They are exactly

the same plants for which you pay a higher price when selected

from regular floral catalogues. We guarantee all plants that

we send out to be true to name, healthy, well rooted and in

good growing condition when they leave our shipping room.

Not a plant nor a collection can fail to give the greatest re-

sults if given reasonable care and attention. Most failures

with plants, bulbs and seeds are due to soil conditions, un-

favorable weather and other causes which we cannot control

and against which we cannot make any guarantee. But if

any plant by accident is not a good plant when sent out, we

will replace it free of charge.

SPRINGFIELD, OHIO, U. S. A.

Springfield Ohio U. S. A., is the acknowledged head-quarters in the

United States for the shipping of plants by mail and express, and is the greatest Rose producing center in the world. It is centrally located geographically, with five express companies—American, Adams, United States, Wells Fargo and Pacific, and has unequalled facilities for receiving and shipping orders and procuring the lowest rates to all parts of the country. This gives you the assurance of getting your order in the quickest possible time, and enables us to guarantee delivery at the minimum rate through one company, for where all these companies are not represented there must be an increase in express rates. Within twenty-four hours we can reach two-thirds of the population of the United States.

Plants by Mail All stock listed in our Catalogue, unless noted, is offered at prices marked, by mail, postpaid, and we deliver all such items free of all expense to any postoffice in the United States.

Springfield Gives Lowest Express Rates Only where all the Express Companies are represented, as at Springfield, can the lowest Express rates be given.

If So Instructed We Will Send	\$3.00 Orders	or larg- er by Express Prepaid
--	----------------------	---

Provided we are allowed

To remove the soil, or ball of earth, from the roots of the plants. This places the shipping of the plants on a mail order basis, and inasmuch as we pay postage to all points of the United States and its possessions, we are willing to prepay the express charges on orders amounting to \$3.00 or more when shipped in this way, except, however, on orders for such plants as Cycas, Palms, Ficus, Azaleas, Araucarias, Camellias, Rhododendrons, Banana Plants, large Lemons or other large decorative plants; Dahlias, Caladiums, Peonies, large Shrubs, Nursery Stock, or vegetable seeds in pints and quarts, and garden requisites. Such plants as these must be shipped without the root being disturbed if one must expect the best results from them. The prepay offer does apply, however, on such plants as Roses, Begonias, Chrysanthemums, Carnations, Cannas, and ornamental Ferns, Geraniums, Fuchsias, Lilies, mailing size Shrubs, hardy vines, some of the hardy perennials and miscellaneous bedding plants. These plants can be shipped to the most far-away sections of our country with the soil removed and transplanted safely. This offer or special inducement is, therefore, made mainly to secure orders from these far-away points where express charges are high and form a barrier to ordering. Please read carefully the paragraph on our order sheet relative to methods of shipping plants. Notice also our guarantee which we place on every order that we ship, no matter when it leaves our establishment.

Exhibition Varieties McGregor's New Fancy Roses A Collection Incomparable

Notwithstanding the great number of varieties of Roses already introduced, hybridization has, during the last few years, been more carefully studied than ever before and the results enable us to offer a collection of fancy Roses which will stand without equal. The average garden enthusiast nurses the delusion that Roses run pretty much alike in color while the fact is that it is not difficult to make up a most attractive collection and from which the common rose color would be entirely excluded. It is the color of a Rose that makes its appeal universal, even fragrance is placed to one

NEW FANCY JAPANESE

CHRYSANTHEMUMS

Chrysanthemums are of Japanese and Chinese origin, and are by far the most gorgeous and elegant of our fall blooming plants. Through the enterprise of American growers, who have given them time and devotion, they have, as if by magic, so developed as to give them the unquestioned title of "Queen of Autumn Flowers." For massive blooms, grandeur of color, ease of culture and certainty of flower, either in the open ground or in pots, there are no plants that will surpass them, and but few their equal. The season of bloom lasts up until severe frosts. It is a pleasing thought to anyone who may have poor success with flowers to know, whether other plants bloom or not, the Chrysanthemum will put forth some sort of a flower if the plant is only a few inches high. The endeavor of nearly all growers has been, in late years, to introduce varieties which will produce the largest and finest blooms for exhibition purposes, and it is of these varieties that our list is made up. Every sort we offer, if well grown, should prove a prize winner.

Beautiful Decorative Ferns

(THE BEST FOR HOME AND PORCH DECORATIONS)

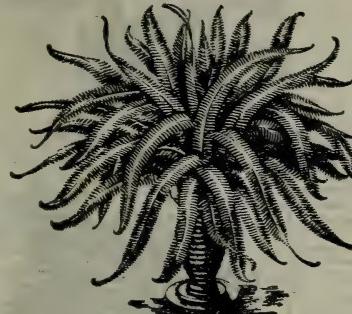

These beautiful plants for home decoration vie with the Rubber plants for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Fronds have a graceful effect produced by few other plants and they go exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.

The Famous Rose MARECHAL NIEL

Strong Two
Year Plants

48^c

The fame of the superb yellow Rose Marechal Niel with its large, deep, golden-yellow flowers is world wide. It is almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. In the North the plant should have careful protection in open ground during the winter. Its magnificent golden-yellow flowers are almost massive in dimensions, and reports from Southern

California growers tell of single plants showing one to two thousand blooms at a time. It is of strong growth and beautiful foliage. It is grand in petal, shape, color, fragrance, lasting qualities and size, an extremely free bloomer and flowers throughout the season. Contrary to many Roses, which lose their color after opening, Marechal Niel decidedly improves and takes a deeper yellow after being kept for a day or two. The Tea fragrance is strongly present in this Rose. It is a variety which practically stands by itself. Price, strong one-year plants, own roots, 14 cents each; six for 84 cents; twelve for \$1.49, postpaid; nice two-year plants, 24 cents each; six for \$1.34; twelve for \$2.64; extra large pot-grown, on their own roots, at 48, 74 and 98 cents each.

The National Rose of America The American Beauty The Greatest of Them All

A hardy Rose of the largest size, having the ever-blooming qualities of the Tea Rose with the delicious odor of the Damask or Moss Rose, and equally valuable for winter or summer flowering. The flowers are so eagerly sought that they sell in the larger cities during the holiday season at the extravagant price of from \$1.50 to \$2.00 for a single bud or flower. In color it is a deep, brilliant rosy-carmine, shaded towards the center with rich carmine-crimson. The back of the outer petals take the coloring of lighter dull carmine. The American Beauty is one of the most vigorous Roses we have. It makes the heaviest stems and the largest bush, it not being unusual to see a rampant bush with a dozen canes as thick as one's finger and several feet in height. The American Beauty is unquestionably the most popular Rose now before the public, a popularity due principally to its splendid value as a winter forcing variety. It should be protected outdoors in the winter. Sold under positive guarantee as to being true to name. (See illustration and prices.)

NURSERY DEPARTMENT

CHOICE FRUITS

SPECIAL NOTICE—As our Nursery is a separate and distinct department from our Greenhouses, it is necessary that all nursery stock orders be shipped direct from the Nursery. When offered by mail, postage is paid by us; if by express or freight, charges are to be paid by the purchaser, but larger stock will be sent.

Prices on Nursery Stock are placed very low and we cannot allow premiums to be selected on orders for small Fruits or Fruit Trees.

The trees offered are young and thrifty and will make a very rapid growth and bear quickly. When fruit trees or shrubs are received before they can be planted they may be safely kept a reasonable length of time by having the roots packed in boxes of moist soil and stored in a cool cellar or shed. It is important to order fruit early, that they may be planted out before the foliage starts.

\$1.19**The 5 Grand Hermosa Roses**

The Hermosa Roses are exceptionally fine for bedding, growing very vigorously and blooming very freely. We offer five of the Hermosa type of Roses. If you want to have rose-buds to cut all summer this set will give you an abundance of flowers.

Old Ever-Blooming Hermosa—14c.

Hardy as a Lilac; free-flowering as a Geranium

We believe the Hermosa is the best known in the entire Rose family and a universal favorite. Hardy as a lilac bush and as free-flowering as a Geranium; it combines everything most desirable in a Rose. The flower is cupped, finely formed and full color most pleasing shade of pink, soft but deep; very fragrant. Price, 14 cents each; 3 for 36 cents; \$1.19 per doz., postpaid; large plants, 26 cents each; 3 for 74c; \$2.66 per doz.

White Hermosa—9c.

"We counted on one plant 143 buds and flowers."

This is a lovely white Rose, a pure Tea, but a foreign seedling; the freest-flowering white Rose we have ever seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot rose. We counted on one plant 143 buds and flowers in a single day and the plant was only nine months old. Try it. Price, 9 cents each; 3 for 23 cents; 84 cents per doz.; large plants, 21 cents each; 3 for 56 cents; \$2.44 per doz.

Yellow Hermosa—11c.

"No Rose like it for freedom of bloom"

No Rose like it for freedom of bloom. The plant is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the Yellow Hermosa from its free-flowering character. We do not know of any Rose that will give the satisfaction that this variety will and we heartily recommend it. Price, 11 cents each; 3 for 30 cents; \$1.14 per doz., postpaid; large plants, 26 cents each; 3 for 74 cents; \$2.66 per doz.

Red Hermosa—14c.

"Could be well termed 'the Velvet Rose.'"

The flowers of this variety are the richest red of any Rose in our vast collection; a single bud or blossom will catch the eye at a great distance so brilliant is the color. Indeed, it is unmatched in its velvety richness; could well be termed "The Velvet Rose." It is as free in blooming as Bon Silene. One of our customers in California writes that she is kept busy by people asking her what Rose this is. Price, 14 cents each; 3 for 36 cents; \$1.19 per doz., postpaid; large two-year-old plants, 26 cents each; 3 for 74 cents; \$2.66 per doz., postpaid.

Crimson Hermosa—9c.

"The very best of all Roses for bedding"

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. The flowers are of large size and of a fiery scarlet, a color seldom seen in Roses. Indeed, a bed of this Rose produces a mass of red equal to a bed of Geraniums. It is planted everywhere on account of its color and freedom of bloom. None better. Try it. Price, 9 cents each; 3 for 23 cents; 84 cents per doz.; large two-year-old plants, 21 cents each; 3 for 56 cents; \$2.44 per doz.

SPECIAL OFFER No. A-225 One each of the five Hermosa Roses, one-year plants, postpaid, for 54 cents; one each of the five Hermosa Roses, two-year plants, for \$1.19.

Dora E. Leis, of N. J., says: "The Rose plants arrived in excellent condition; I am more than pleased with them."

A planting of Weigelia, Forsythia, Hydrangea, Spirea, Clematis Paniculatas
Barberry Thunbergii in foreground

*Hydrangea Arborescens Grandiflora Alba, 14c

This beautiful hardy American Shrub is the finest addition to this class of plants found in many years. The blooms are very large, of pure snow-white color, resembling a little the hardy shrub so well known, the "Snowball," in color and make-up, only they are much larger in size and much more striking. One of its most valuable features is its coming into bloom just after the passing of all the early spring shrubs, while its long season of bloom, from early June through August, renders it a valuable plant not only to the florist, but to the owner of every garden. It is perfectly hardy, standing twenty degrees below zero. Price, nice young plants, 14 cents each; three for 39 cents; larger plants, 17 cents each; three for 46 cents; strong plants, 32 cents each, or three for 91 cents. Strong, field-grown plants, two and three years old, 46 cents and 96 cents each, by express.

Japan Quince, 14c

Among our choicest shrubs. Their large, brilliant scarlet flowers are among the first to bloom in the spring. Price, 14 cents each; \$1.44 per dozen.

Maiden Hair Fern, 17c

A remarkable tree from Japan. Of medium size and rapid growth beautiful fern-like foliage. Price, 17 cents each.

Althea Meehanii

New single flowered, variegated leaved Althea. One of the best so far introduced; brightly variegated foliage and large single flowers of a satiny-lavender color. Price, 17 cents each; four for 58 cents.

HYDRANGEA

*Paniculata Grandiflora, 14c

It attains a height of three to four feet, and is perfectly hardy in all parts of the country. The flowers are white, borne in immense pyramidal panicles nearly a foot in length. It commences flowering in July and continues until November. The plants should be cut back every spring at least one-half of the last season's growth, as the flowers are borne on new wood and are much finer when the plants are treated this way. This is the finest flowering shrub for cemetery planting we know of. See illustration. Price, nice plants, 14 cents each; two for 23 cents; large plants, 23, 32 and 44 cents, by express.

STANDARD OR TREE HYDRANGEA—(Paniculata Grandiflora). Strong tree-shaped plant, 3 to 4 feet high. Price, 98 cents each (by express only.)

Flowering Shrubs

Whether planted individually or collectively, the shrub is an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen some unsightly object or to destroy the strong stiff lines.

EXTRA LARGE SHRUBS

We call special attention to the varieties of shrubs starred (*) on this and the following pages. We have these shrubs in extra heavy field-grown plants for giving immediate effect, as shown by the illustration at the top of this page. Price, your selection of any of the varieties starred (*), 32 cents each; any three for 92 cents; any six for \$1.71; any twelve for \$3.19. They must be shipped by express or freight, as they are too large to be sent by mail.

Smoke Bush, 14c (Purple Fringe)

Much admired for its long feathery flower stalks, which give the tree the appearance of being covered with a cloud of smoke. Grows to a height of eight to ten feet. Price, 14 cents each; two for 23 cents.

Desmodium Penduliflorum, 23c

Stems clustered, gracefully arching, 2 to 4 feet tall, literally loaded in early autumn with drooping racemes of rose-purple flowers. Very showy. Price, 23 cents each; larger plants, 36 cents each.

HINTS ON CULTURE OF DAHLIAS—A very important point in planting of Dahlias is to select a location well drained and where the plants will receive full benefit of the sun during most of the day. Dahlias are not so particular about soil, excepting that it should be loose and friable. Spade the soil deeply, adding a liberal amount of fertilizer. For large flowers cut away one-half of the lateral branches, this will give flowers more than double the size of those grown in the usual way.
